[Chorus]

I wanna get down, down, down, down
Down, Down, Down
Get Down
We can get down

[Kanye West]

Uh... Mr. West is in the building
Children, Ladiesssss
Call the shrink up, they about to go crazy
Hold your drinks up, like you was celebrating
Hold your guns, if they is hella hating
I'm so clean, and them they got rabies
I can see them through the lense of my rabie
And wait fast... MmmHmm
Yeah do you play fair? MmmNnnn
Grab your remote, for the reason they made TIVO
Snap your Nikon's with the icons with Nike's on
I heard you like to do it with the lights on
But I really make babies when the mics on
Check out all my kids, that ball all my cribs
Got me out of that apartment
You have got to pardon him
I am so retarded with a spit like a retarded kid that spits
Ooops, I ain't mean to say that shit
I told my homie Chris, these chicks is dangerous
You need a girl that's A List
Not one that's just barely made it on A List
Casue from Wall To Wall
We got it Poppin' right now
It's a hundred girls, tryna get DOWN DOWN DOWN

[Chris Brown]

Baby girl, gotta tell you
Seen you somewhere before, You look familiar
You had a red shirt, Dickie slacks, and a Gucci bag to match it
Tell me you remember that baby girl, but lady never mind that
Can I take you out later? And heres my contact

Can you do me this favor? Can you spend this paper?
Only you cause it's just sitting and lets just get it and
go
