I've been the villain
I've played the fraud
Put my two cents in
When I knew it was wrong
I've done you wrong now
But I've seen the light
Will you let me set things right?

And I've danced with the devil
I followed in his steps
Tempted by his promise
But was the one being tricked
Now I'm stuck in these shackles
And guess who's got the key
All you gotta do is say that you forgive me

And set me free from this life I've been living
I don't want to bring you harm
Life free of jealousy and sinning'
I wanna love my brother sister more

And I made enemies
I know that it was wrong
I poisoned the well
That they were drinking from
But if I keep on doing this
Everyone gonna be dead and gone
And I'll be left here all alone

So set me free from this life I've been living
I don't wanna bring ya harm
Life free of jealousy and sinning'
I wanna love my brother sister more
Set me free from this life I've been livin'
I've been a slave to hate for so long
And yes! there's been a great change within
And I promise gonna love you more
