Every morning  
There is no smiling on her face  
Just a â€¦  
She's feeling outta of place  
And a prince became the story of the wrong one  
Every show .. it's gonna be alone  
H puts his .. faces that they don't belong  
She hopes she .. him she wakes up when he will be  
gone  
it's not a message for her â€¦  
just run away  
just run away  
just run away  
just run away  
I am empty now but never out of pain  
Is she stays around it will break her down again  
My heart can take so much more than the body can  
You .. [onlycountrymusiclyrics.com](http://onlycountrymusiclyrics.com) and he's left  
She run .. he was there  
She rather wonder give herself a greater fear  
It's not a messageâ€¦.  
just run away  
just run away  
just run away  
just run away  
she leaves her clothes behind cause he said ..  
she's taking back the piece around his finger  
maybe today she can find herself away  
just run away  
just run away  
just run away  
just run away  
I am empty now but never out of pain
