f/ De La Soul

We just keep on rockin' (7x)

86'in it

We was 5 bricks in it

Firm like a silicon tit in it

Had the sticks and the 40's all thick in it

Workin hard like we cotton-pickin it

Now we shittin it

Herb spittin it

Atom and neutron headz splittin it

Keep the clique (?) you know whatever syncin it

Press the record button start printin it

Now she winkin it

I's trickin it

Stuffed about a couple-a inch in it

UK represent, U-Kickin it

Wide open, stop you from blinkin it

We be overseas, battleship sinkin it

Your rhymes sound like you put no think in it

You out for the Rolly look and the mink in it

While we sportin the real roller-rink in it

Skate like we wearin the ice to infinite  
Bout it like we runnin with P and No Limit  
Straight and no gimmick  
We all bout to it (?)  
From Piccadilly Circus down to Conduit  
Ask how we do it  
Keepin the fix in it  
Lay some old shit, complete the mix in it  
Expenses we trimmin, I'm out to afford  
I'm tryin to even see the lawn from backyard to the  
brawl (?)  
From Capetown to Leeds (we just keep on rockin)  
We at incredible speeds (we just keep on rockin)  
LA over to France, we make your hoes dance  
Fulfillin all your needs (we just keep on rockin)  
And wild out to London (we just keep on rockin)  
You know how we run it (we just keep on rockin)  
Whether the mountains of Maine or beaches out in  
Spain  
We out to go sun it (we just keep on rockin)  
Yo, take your style to the back, to the back of the bus  
We front seat drive, no one else stares but us  
Never the act of, I activate the jam  
That be my life Baby J (?) and you know who I am  
The fans pulling cameras out like guns to shoot  
We got this rap shit tied without the suit

Lookin for loot, in all the right places to look  
And tonight it's in your pocket so pay these cooks  
Cause we servin up a batch of the words to match  
Hand delivered with some drugs that Mace attached  
(Maceo!)  
My combos concrete, ask the fleet  
Or better yet ask your crew who knows defeat  
But beyond that I be the capital cat (?)  
Known to dog a girl out with wax or dat (all that?)  
Bring official illustration to woman and man  
Solo, individual, group or clan  
Put the chap (?) to the neck to watch you nod  
Flippin rhymes on the even, off the odd  
Fresh off the pod, I got the gifted place  
What you need to taste up in your face  
Straight with no chase, move on and on  
We splicin projects with some herbal-ons (?)  
De La never pitchin you run of the mill  
So watch my infantry storm all over the hill  
40 below in Alaska (we just keep on rockin)  
To the folks in Madagascar (we just keep on rockin)  
When we in Philly eatin cheese steaks with Aunt Milly  
We still gonna blast ya (we just keep on rockin)  
Up in the Alps of Switzerland (we just keep on rockin)  
To the white cliffs of Dover (we just keep on rockin)  
High tech like Japan, and out to Scotland

Where they ain't never sober (we just keep on rockin)

It's singulary like the Odd Couple, kinda hot on the pavement

Your style is pretty like floral arrangements

Engaged but, she bitchin bout the wedding (word?)

Seen a lot of ass so where's my ass-headin?

Miss my Pro-Keds with the stripes on the bottom

Always cross my t's but my i's I don't dot em

See the rules ain't the rules if they ain't bein broke

We old-folkin it, got you smokin it

Herb communications cause we talk that talk

Whether Yorkshire or New York, New York

Deep from the sleeps, I'm gettin Nightmares on Wax

Fear can't exist if you got the facts

And if you gots to ask, well you ain't heard about us

Holdin more cream than the cream in clam chowders

We deep like Parliament, parts of it

We keeps at all ease from the start to get (?)

You can find my rhymes where paperbacks are sold

Place my backbone in it with my heart to hold

I work the zero with the ten in front, so what you want?

How much of it and where, I'll bring it to you fair

My brothers throughout Tab (?) call me Fly Care (?)

Pretty babies call me baby come here

You get on the choke, as if throat was filled with strep

While I inject the mic with rep

It ain't nothin but the step to take, never bringin it fake  
Got the frontier wantin chicken heads with steaks  
I paint this whole scene magnificent, magnanimous  
Distort the mental court, like cannibus  
For those who want the play, bring the pay  
While I be rippin rhymes at the dock or the bay  
Push it back on the fader (nah turn it up kid!)  
While the beats stay bangin, directly engineered  
(damn!)  
We in the bush of Nigeria (we just keep on rockin)  
Diggin the dirt in Atlanta (we just keep on rockin)  
Smokin that what in Amsterdam, just me and my man  
While we duck in Dantana (?)  
Now we in the middle of Queens (we just keep on  
rockin)  
Jumpin like Mexican beans (we just keep on rockin)  
Peace to my folks in Iraq, we sew the whole map  
And stitch the inseams (we just keep on rockin)  
Word up (we just keep on rockin)  
International style (we just keep on rockin)  
Takin it from the US to the UK with my man Ease  
You know how we do it please oh please (we just keep  
on rockin)  
Tai-uli (?) on the board (we just keep on rockin)  
Cornego (?) in the crib-o (we just keep on rockin)  
Wonderwhy in the area  
I.C.L. posse in the place to be (we just keep on rockin)

You know how we do

De La, Mr. Maceo

We just keepin on rockin (x3)

Brick wall way, six feet tall way, you know how we do

Peace
