Too dark...
Hell yeah...
Aaargghh...

I've been finished and brought down...
Nobody knows me I am cold...
Looking for help somehow somewhere...
Walking down this road all alone...

Dropped to my knees, when hope ran out...
(Walking down this road all alone...)
Tell me what the fuckin' wrong with me?
Is there nothing you can say?
(Walking down this road all alone...)

Reff: 2times
I wanna scream to show that I will fight...
I'll try one last time.
My own another chance. My last chance to chase a
dream...
I'll fight to the all that remains...

My heart still frozen as a snow...
Hoping the stars lend me their light...
To bring me to fight it all alone...
Put me out of my misery...

It's the path I've choosen to go...
Do I fight or let it die...
(Put me out of my misery...)
In the shadow of darkness...
I stand on the light...
(Put me out of my misery...)

Reff:
I wanna scream to show that I will fight...
I'll try one last time.
My own another chance. My last chance to chase a
dream...
I'll fight to the all that remains...

I wanna scream to show that I will fight...
I'll try one last time.
My own another chance. My last chance to chase a
dream...
I'll fight to the all that remains...

Bridge Reff:

I wanna scream to show that I will fight...
I'll try one last time. My own...
(My own...)
Another chance. My last chance to chase a dream...
(Chase a dream)
I'll fight to the all that remains...
(Remains...)

Reff:

I wanna scream to show that I will fight...
(Fight...)
I'll try one last time...
My own another chance. My last chance to chase a
dream...
I'll fight to the all that remains...
(To shut their fuckin' mouth!)
