I dissolved in the evening  
It stores everything I want  
Force Against of,... the world  
Full,... of trickery dark

As if the body is not able to fight  
The beauty Of this outrage  
Although sometimes I feel homesick  
Longing bring me closer to god

Reff:

I tried to climb the trail of my life(the valley of sin)  
Silent in the darkness of the world(full of trickery dark)  
Stuck in sin and my conscience says (the valley of sin)  
No remorse when I lost in the valley of sin!

Give me the strength lost in the valley of sin  
As if the body is not able to fight  
Give me the strength lost in valley of sin  
Full of trickery dark (2X)

Stuck in sin and my conscience says  
No remorse when I lost in the valley of sin!
