Having hard time with you on my side
I don't know what to do tonight
Every time you come around
You make me want to scream & shout
And I don't know if it's over long ago
Maybe I should wait for something more

You don't have to like punk rock music and horror movies
You can still be the one for me
If you onlyâ€¦ If you only show me and hold me
and always get close to me
When it only gets worse

Turn the car back I wanna go home
I don't like you anymore
We can't solve this like before
It's the only way I wanna go home
And I don't know if it's over long ago
Maybe I should wait for something more

You don't have to like punk rock music and horror movies
You can still be the one for me
If you onlyâ€¦ If you only show me and hold me
and always get close to me
When it only gets worse

When you walked away like yesterday
And took your angry face away I
I wanted to kill you so bad
And after all we said and done
I still feel something deep inside
I want to turn back time
And save you tonight
