Remember

Show 'em scraping
Five figures long suit and face fully guard slap them
Pancake nigga get pudding low cabin
Uncle Ben turn to Uncle Tom when the God rapping
P I'm the flavour you're not bit
I knock you out in front of your neighborhood
Watch you clique
Talk to me about that life
Get cut nigga big ruckus about that knife
Rappin' is love, better off trafficking drugs
Slap with this slug fucking with an african thug
When I was 12 I killed a lion
The ill but the real you should chill with the lion
Making up stuff, the stuff I make up was tough
Don't believe it but believe a nigga fucking you up
Sean Price big buck I am half of the alter
Fly drug dealer traffic dead on a delta P

Remember
Remember me

Sean do it
Drug dealer lean in the beam on the con do it
Thugs on the scene and beam and they gone shoot it
Love from the team still scream 'cause Sean stupid
Stop that, buck said shoot 'em best believe they got
shot at
I'm just following orders Molly ring all now you fondling
daughters
Keep napping to bitch big ditch slapping the bitch
In the face if they grip put the cap in the bitch

Turned duster donors big cohones bitch I'm tripped out
