You hide in something(you don't have)  
You trying to be someone(cause you're none)  
You hide in something(you don't have)  
You trying to be someone(cause you're none)

You lost yourself in this way  
Lights and fame fuck your brain  
You lost yourself in this way  
Lights and fame fuck your brain

A pretty fake smile, look what you left behind  
Keep your lies away...

You hide in something(you don't have)  
You trying to be someone(cause you're none)  
You hide in something(you don't have)  
You trying to be someone(cause you're none)

A pretty fake smile, look what you left behind  
Keep your lies away...

AWAY

AWAY

You hide in something

AWAY

You hide in something(you don't have)  
You trying to be someone(cause you're none)  
You hide in something(you don't have)  
You trying to be someone(cause you're none)  
You don't have cause you're none  
You don't have cause you're none  
You hide in something(you don't have)  
You trying to be someone(cause you're none)  
You hide in something(you don't have)  
You trying to be someone(cause you're none)
