Beautiful moment like that  
Will never happen again  
When I saw you smile for the last time

Splashing rain is flooded  
Every corner of my eyes  
You...

Emptiness turn into my sad story  
All at once the devil look toward to me

For the moment I release you  
For now I let the devil take you  
For now I leave you  
This easy as you created Ave to accompany me  
Why...

Emptiness turn into my sad story  
All at once the devil look toward to me

Reff  
Take easy my love I'll pick you up  
To heaven  
Easy as you separate them I was with him  
Take easy my love I'll pick you up  
To heaven  
Easy as you separate them I was with him
