We are used because of our green,
Vultures gather around us only when we have things
They pick us dry and leave us to die
The social ties are spat in our eyes
Oh I used to be the captain of this ship,
Always loved for the good times that followed my step
Til we ran up high and dry,
They jumped off so fast sure didn't waste any time

Oh we have all been there

I can't take all these Hollywood users
Four years of my life spent defending abusers
Been stabbed in the back more times than I can
remember
This is the time for me to take back my life

The paths been layed out clear in front of me,
To change my ways it's so easy to see
Cut the bullshit outta my life,
I'm sick of all these losers wasting my time
Oh the times have changed nobody fucks with me,
I ring the bell you'd better give me the key
Now I walk by everyone stares to see,
Is this a man or blessed deity

Oh we have all been there

I can't take all these Hollywood users
Four years of my life spent defending abusers
Been stabbed in the back more times than I can
remember
This is the time for me to take back my life

I'm living now, I'm living now, I finally feel alive!
I'm living now, I'm living now, I finally feel alive!

[Solo]

Oh I can't erase the memories,
Days spent away were exactly what they seemed

All of the lies oh they will never fully pass me
But I'm stronger now and can't believe that I never
used to see

I can't take all these Hollywood users
Four years of my life spent defending abusers
Been stabbed in the back more times than I can
remember
This is the time for me to take back my life (yeah)

I can't take all these Hollywood users
Four years of my life spent defending abusers
Been stabbed in the back more times than I can
remember
This is the time for me to take back my life

I'm living now, I'm living now, I finally feel alive!
I'm living now, I'm living now, I finally feel alive!
