all we have
it's little scare
we dont mind
we dont care
remember
I thought your time
all you know
will let you cry
love will pretty splat
love with music

2

seven years
and still together
style yourself
little scare
but i want you to know
stand by me
the gift you give to me
has changed my life

love will pretty splat
love will pretty splat

love with music
love with music
