(Previously Unreleased Version)

Clawed fingers forcing iron bars  
Visions of tortured misery  
Semi-human tears of frustrating rage  
Hunched up in this fucking cage

My emotions are artificially induced  
Though no further need to feel  
Now I've fabricated steel limbs  
Electro-pulses throb within

Man made monsters, morbid science  
Deaf to my feeble protests  
I've served my purpose

In my veins life fluid used to flow  
Now drained and replaced  
With sedative substances  
To restrain instinctive rage

Man made monsters, morbid science  
Deaf to my feeble protests  
I've served my purpose
