Obscure oppression, from within
Controlled behaviour
Mass suppression in complex systems
Dictate before the birth

Underlying confusion
Life breaks free
A mournful expansion
Saneless theory

Those detractors unnatural order
Erratic recursion of thought
Irrational change, the aspect of life
Chaotic order sought

Underlying confusion
Life breaks free
A mournful expansion
Saneless theory

Regularity / Random
Fractal complexity
Witness sterile fluctuation
Saneless theory

Ruling powers assimilate
Overshadow, subjugate
No predictions an unfound dream
Egress reality

Yet deviations are amplified
Into chaotic theme
Enter Chaos!

Their passionate numbness
Ascetic credibly
Hidden in the emerging field of
Saneless theory
