i have walked a thousand miles  
i have worked as fast as i can  
and i have raised our precious child to be a man  
but i would never turn my back on your love

i have gone up and down  
yeah i have wandered from place to place  
and i have raised my weary hand to my face  
but i would never turn my back on your love

is there anybody there who knows me?  
is there anybody ther who knows now  
that i will be home soon?  
and i would never turn my back on your love

when the sun is going down  
and there are cars against the sky  
i have seen my hometown in your eyes  
but i would never turn my back  
yeah i am learning to face the facts  
no i would never turn my back on your love
