[intro Leona Lewis]

I think I can fix you...

I am lost, can't find my way,
you were gone, when im awake,
(if this is it?), I will feel for you,
I just need to numb the pain

[Chorus/hook Leona Lewis]

will you fix me, will you show me how to breathe
before all is gone and all my hope is lost, baby
will you fix me, will you give me what I need,
I love you

[ricky hil verse]

when im lost, can't find my way,
and when it's lost, it finds me someway,
and when im gone, im gone away,
and when its gone, its gone a ways,
I never knew that but I think I know now,
ill never get back what I use to throw out,
im alone and it's real but I don't know now,
my heart is all my I have and my brains wearing out

[Chorus/hook Leona and Ricky]

will you fix me, will you show me how to breathe
before all is gone and all my hope is lost, baby
will you fix me, will you give me what I need,
I love you

oh oh a oh oh oh oh
oh oh a oh oh oh oh
oh oh a oh oh oh oh
