Defend the young for
the plague has come.
An ominous cancer is here.
Unleash the beast of
your scornful misery.
This is our only chance
to achieve peace.

Enter a darkened world,
a realm in which
the demons surround you
and bask in the mayhem
they have wrought forth
from their own hell (as light protects them).
And hatred it wraps
itself around my neck (strangling me).
For what seems like a century (the misery)
that falls beneath the surface
to be crystallized in my heart.

The night has come again.
For us to change the past.
Hate and lies become a myth.
This is how we'll live.

Fight!
This is our war.(x3)
Fuck them all and
fight them off.
Don't be defeated.
An ominous cancer
is here.
Release us now.
From this tethered life.
This is our only chance
to achieve peace.

Enter a darkened world,
a realm in which
the demons surround you
and bask in the mayhem
they have wrought forth

from their own hell (as light protects them).
And hatred it wraps
itself around my neck (strangling me).
For what seems like a century (the misery)
that falls beneath the surface
to be crystallized in my heart.

The night has come again.
For us to change the past.
Hate and lies become a myth.
This is how we'll live.
