[Kanye West]

Yeah, and you say Chi city

And you say Chi city

I'm down with Chops from Philly

Nothin' really just to rock me free and Mack Milly

Listen, yo

I drove too new york with ten dollars to my name

Brought back a couple platinum plaques on the plane

Brought back and sold you to change the game

Had a little beef I had to aim, it's stainless steel

The lyrics in my heart I can't restrain they real

I swear to God I wish I had a dollar bill

For every time a nigga told me stick to the peace

I could have ate a cheese, cakin' leas six times a week

Plus I'm killin' these niggaz on that lyrical shit

Man-days coloris I push miracle with

Though I'm killin' these niggaz on that lyrical shit

Mayonaisse color Benz I push miracle whips

Chaning Lanes

Yeah, I'm changing lanes
