"Cries Me Blood"

I kissed an angel and hold her hand
You can't stop the time and I say good bye!
Fall in to love, every season, every year,
Touch my heart and get a heartbreak!

I see fear in her eyes, that's the beautiful moment of
this night.

I kissed an angel and hold her hand
You can't stop the time and I say good bye!

When she in my dreams cries me blood, cries me
blood, cries me blood.

She lies me!
We fall in to death!

I have the best given from heaven.

When she in my dreams cries me blood, cries me
blood, cries me blood.

Fall in to love, every season, every year,
Touch my heart and get a heartbreak!

Touch my heart and get a heartbreak!
