This is more than a new generation
This is a kind of aberration
This is more than child toy
This is fuckin poison

She couldn't do anything
When you give it up everything
Coz all her spirits fell
When u use a piece of hell

This is more than a new generation
This is a kind of aberration
This is more than child toy
This is fuckin poison

Your life ends with early pain,
Heart gets beating slowly
Last breath went aut from your lungs
Fight has ended, throw your guns!

Geting walk on a one way road
Mindtrips about your life are cold
Down and down, you don't care,
Lost the control, you aren't decider.

This is more than a new generation
This is a kind of aberration
This is more than child toy
This is fuckin poison

This is more!
Than child toy!

Geting walk on a one way road
Mindtrips about your life are cold
Down and down, you don't care,
Lost the control, you aren't decider.
Down and down, you don't care,
Lost the control, you aren't decider.
