The hard times are getting harder,  
It's colder where you are  
You would it kill me to call  
I've already made you too many promises  
I never meant to keep,  
But that's just a side of me  
I wish you never had to see  
I took a shot in the dark  
But I came up short  
I swear to God this time it's gonna hurt

Can we pretend that it never even happened?  
I will sing myself to sleep  
'Cause you've made a liar out of me  
Can we pretend that it never even happened?  
I will sing myself to sleep  
'Cause you've made a liar out of me

I watch my shadow stretch from my feet  
Like the way we stretch the truth  
I wish I could play the victim for you  
I just needed room to breathe,  
My world collapsed on me  
And I miss screaming off rooftops in New York City  
I took a shot in the dark  
But I came up short  
I swear to God this time it's gonna hurt

Can we pretend that it never even happened?  
I will sing myself to sleep  
'Cause you've made a liar out of me  
Can we pretend that it never even happened?  
I will sing myself to sleep  
'Cause you've made a liar out of me

This isn't my confession  
But I'm coming clean  
I knew it was just a matter of time  
Before this all would catch up with me

Can we pretend that it never even happened?  
I will sing myself to sleep

'Cause you've made a liar out of me  
Can we pretend that it never even happened?  
I will sing myself to sleep (sing myself to sleep)  
'Cause you've made a liar out of me  
Can we pretend, can we pretend?  
(Sing myself to sleep)  
Can we pretend  
'Cause you've made a liar out of me  
Can we pretend that it never even happened?  
I will sing myself to sleep  
'Cause you've made a liar out of me
