"Disorder"

Visit "[Disorder](#)" on MotoLyrics.com

Mankind war
Aimless murders
Eternal fighting for
Authority and territory

Insensibility of sinful battle
Lean prisoners
Left houses
Orphaned children

Someone draws for strings
Demands blood and pain
Terror and violence
In exchange for tears and suffering

Multitaled soldiers
Crushed families
Towns in derbises
Heaven screened by dust clouds

Millions corpses
Putrefying bodies
Screened your aroma
Crimes places
