I like the dark
It is my friend
There at beginnin's
It'll be there at the end

I like my own
Conquer me
That way it's easier
At least for me

Hold on (*4)

I travel light
I'm real good
A learner so early
Yeah I understood
Yes I understood (*3)

There'll be no trace
When I leave
The lines on my face - a map
Easy to read

Hold on (*2)

The road I take
Is made for one
I don't regret
All the thing I've done (*5)

I like the dark
