"Walk The World"

Visit "[Walk The World](#)" on [MotoLyrics.com](#)

Go, walk the world with no shoes
And let desires leave your soul
Go, and seek the land where no others go

Go visit a mosque were they preach for health
See the scars open with no pain on the skin

Go look and know the difference
Between you and them
It's just as much as heaven is to hell

Go light the sky with stars tonight
For someone who needs you

Walk bare footed
Let the naked world
Smile

As you and he share love in sacred place
