Watch this Beres!
Woman sing all about dere wanting this
Hear why!

Verse 1:
Thought I could live without you (Eh-eh)

Thought everything would be fine
Saw nothing special about you
But still you were plaguing my mind
I used to take you for granted
You were the last name in my life
Presently you're the most wanted
At the top of my life
And it was yesterday when
I saw you down my lady
You were with my best friend (Jealousy reign)
All ((trop-a-tane?)) (Talking game) (And!)
And now I'm falling in love
All over again, yeah
How could I ever doubt
That you were my friend (I'm)
Falling in love (Falling)
All over again (Over and over - Watch this!)
How could I ever doubt
That you were my friend (Beres!)

Who
Say that big man dont cry
Yuh never miss di water
Till yuh well run dry
Could yuh find it in yuh heart
To give me one more try
I wont abuse the situation
This time I wont lie
By mi nightly conversation
Also mi lullaby
Well she squeeze orange juice
An mi eggs well fried
Garments well cleaned
From mi socks to mi tie

She's a friend, also a lover
Dat mean me not feel shy
Me express meself
Straight up to the sky (Oh)
Who
Say that big man dont cry
Yuh never miss di water
Till yuh well run dry (Me say)
Who say that big man dont cry

Now I'm falling in love
All over again (Its only natural)
How could I ever doubt
That you were my friend (Eh-eh)
(But I'm) Falling in love
All over again (As I was saying)
How could I ever doubt
That you were my friend (Watch this!)

Woman unleash all yuh sweet chat
An how yuh massage mi back
Heap on mi advices
((A jan tar?)) mi get dat
Woman want affection
So me dem fill up pon
Through mi ignorance
Mi never understand
I gwan take time out
To show me love motion
An make yuh know we cyaan
Stop correspond
I am di greatest loverboy
In all di island
Put on ya slipper
Put time ya gwan run
Hear me out
Woman I'll make you understand
Even the wisest man
The great King Solomon
Hear 'bout him dickie
And get a run back
Dats how him lost his thought
Inna di great Babylon
(So me say)

Who
Say that big man dont cry
I learn the hard way
Woman dont ask me why (Oh)
Who say that big man dont cry
Come down Beres Hammond

Come tell the world why

And now I'm falling in love
All over again, yeah
How could I ever doubt (How could I)
That you were my friend (He's a friend also a lover)
I'm falling in love ((Never could dem fool dem
bowcat?))
All over again
How could I ever doubt
That you were my friend (Watch this!)
All over the earth
Di woman dem god bless
Upon di laugh fi man
Di man a make dem tax it
One time yuh hurt dem feeling
And make dem flex
But a making a part
That is the greatest
Dis cause matters ((over cuppa))
Tell ya kiss and caress
Waan buju Banton
Dem make yuh ask fi best

(Tell me) Who
Say that big man dont cry
I've learned the hard way
Dont ask the DJ why
Who
Say that big man dont cry
Dont make me ask him
Beres him no stop cry
