I'll carve my own name into the earth  
I'll carve my own name into the earth  
Don't tell me how to think  
Don't tell me how to live my own life  
I make my own decisions  
And I'll pay the ultimate price  
A collection of memories  
How could I ever forget?  
This is a journey of lessons  
From my birth to my death  
A path of opposites and all the choices in between  
I'm running scared through this poetic tragic movie  
scene  
The days turn into weeks, months then turn into years  
We'll stand the test of time, our hope will persevere  
I roam across the land  
I wish to seek and understand  
The truth about life and whom I really am  
My blood is still young and karma's knocking at my  
door  
It's time to stand up, this is my life I'm fighting for  
It's time to set the record straight  
No more excuses, no more complaints  
Leave everything behind, get up and live your dream  
Don't let it fade away  
We are all born to be free  
Fuck who you want me to be  
Born to be free  
A path of opposites and all the choices in between  
I'm running scared through this poetic tragic movie  
scene  
The days turn into weeks, months then turn into years  
We'll stand the test of time, our hope will persevere  
I roam across the land  
I wish to seek and understand  
The truth about life and whom I really am  
My blood is still young and karma's knocking at my  
door  
It's time to stand up, this is my life I'm fighting for  
I roam across the land  
I wish to seek and understand

The truth about life and whom I really am  
My blood is still young and karma's knocking at my  
door  
It's time to stand up, this is our lives we're fighting for  
This is the life we're fighting for  
This is the life we're fighting for
