The the'ter, the the'ter  
What's happened to the the'ter?  
Especially where dancing is concerned

[1]  
Chaps who did taps aren't tapping anymore  
They're doing choreography

Chicks who did kicks aren't kicking anymore  
They're doing choreography

Queens with routines  
That would stop the show in days that used to be

One and all  
They're not chancing what we used to call dancing  
Instead of dance, it's choreography

[2]  
Jakes who did breaks aren't breaking anymore  
They're doing choreography

Who did softshoe doesn't do it anymore  
They're doing choreography

Heps who did steps  
That would stop the show in days that used to be

Through the air  
They keep flying like a duck that is dying  
Instead of dance, it's choreography
