[1st verse:]

My little honey  
I must be leaving  
Be bright and sunny  
Now don't be grieving  
Just dry your tears, dear  
It's not for years, dear  
I'll soon return to you

[chorus:]

Kiss me, my honey, kiss me  
And say you'll miss me as I miss you  
Love me, my honey, love me  
Like stars above me  
Say you'll be true while away ev'ry day  
I'll be thinking of you  
Dearie, now don't grow weary  
Be bright and cheery, my honey do  
So dear, before I go dear  
Come here and kiss me, (Kiss, Kiss) honey I love you

[2nd verse:]

That same old moon, dear  
That shines above us  
Will see us soon, dear  
As happy lovers  
So don't you worry  
For I will hurry Right back and marry you
