[Spring:]

The Spring was here, the skies were blue  
The birds seem'd glad to sing  
The very sweetest song they knew  
Ev'ry happiness to bring  
Sweet nature dressed in colors bright  
The flowers brought good cheer  
The Spring was here, the world was right  
And I knew that you were near

[Fall:]

The Fall was here, alas! I found  
That the birds had flown away  
The skies were dark for miles around  
And the whole world seem'd to pray, darling  
The sun had gone, the flowers died  
And all nature look'd forlorn  
It seem'd to me the angels cried  
And I knew that you had gone
