Write and Say
Write and Say
Write and Say
Ride and Say

Reach Out
Reach all this
All over again
When it's all over, it's all over
Then I say it to you backwards

Hold on
Hold all this
If that's what you want
We set the fire again
Cuz wind is blowing in our hearts

Look out
Look all this
See for yourself
Behind a white tile
Don't live your life backwards

Try out
Try all this
Rise your emotion
Down to the coastline
Holding on a perfect time

Behind a white tile
Fold into a perfect time
Holding on a perfect time
