"Daydreams"

Visit "[Daydreams](#)" on MotoLyrics.com

A sudden hot sweat had broken out all over
The pain of the coughing fit
The impression made by the dreams I've noticed
The rhythmic movements

If you say it's not okay
You know we can change
All the daydreams come from me
And we got carried away

If you say it's not alright
You know what we do
All the daydreams come from me
They're never your mistake

A new reflection surround you like a gold line
Take only what you need
Looking forward for a cold November
And all the colours out

Send me all
All over
Send me all
All over now
