Stop and glance  
Over his shoulder  
We've been everywhere  
Velvet made non-light

Stop and glance  
Over his shoulder  
We've been everywhere  
Seven strands are tight

They watch / the face / in pit / the heat / was coldness  
Scarlet / Caps / Swallow / the sea

Dahlia with petals of fire in golden

Lay down your head  
Writing your diary

He said:  
She stands the lights away  
Out of the converse  
She cuts those nights in days  
To the other one
