We walk  
We walk with folded hands  
And we're careful with our feet  
We listen  
We listen with open ears  
And every word is a kiss  
Is a sigh  
Is a promise from beautiful lips

Now this is  
This is the way were  
But the rose no longer blooms  
And we've taken  
What could be our final bow  
And the applause we will get  
When we get where we go  
Will be ours alone

And when  
When I picture you  
There upon your wall  
Forever in my view

Ahhh  
Ses Monuments  
Ahhh  
All the places I will never go with you

Now think of  
Think of the community  
We'll tell our friends we're dead  
And we'll be thankful  
Thankful for all we've learned  
And I'll be grateful for you  
For your warmth  
For the man you've made of me

And when  
When I picture you  
There upon your wall  
Forever in my view

Ahhh  
Ses Monuments  
Ahhh  
All the places I will never go with you

Is this what you really want?  
I can tell by your voice  
You're not so sure  
And I have to admit that I have my doubts  
And sometimes I'm not so sure what this is all about  
And I have to admit that I have my doubts  
And sometimes I'm not so sure what this is all about

Ahhh  
Ses Monuments  
Forever in my view  
There upon your wall
