I try to live with myself
But at least I'm not as fucked as you
I know I'm fucked as you are
But you are on my nerves all fucking...
Hear me, I'm not the one you'd like to fuck with
Fuck off your money is disgusting

Hear me out man
We're losing time
We don't need all the shit we buy

Consume to feel content when advertising's
everywhere
And we've got everything we really need
But there is war between corporations

Hear me, I'm not the one you'd like to fuck with
Fuck off your money is disgusting

Follow me in the right direction
A world without greed
A world with love

(Hear me out man)
Hear me out man
We're losing time
We don't need all the shit we buy
(All the shit we buy)

Hear me out man
We're losing time
We don't need all the shit we buy

You are fucking dead
You are fucking dead
You are fucking dead
