Everything that I ever knew
Was really like a joke (like a joke)
It's not what I have learned
But it's better than before
One peak, it's all I ever
One time, it's what I'm going for

This one day I woke up and saw an arrow above my
head
It might be my ego reminding me

So what have we learned today?
We have learned that everything I say
Is really a mystery
It's really a mystery

I can't get my head around this
I'm not what I think I am
But I'm actually better than before
'Cause I'm not human anymore

I actually feel like I am better off this way
It never felt like I was human anyway

I don't know you
I don't know you
She said
I don't know you
I don't know you

I am Cylon you are human and we can coexist
I still feel the same for you even though I am machine
I am Cylon you are human
I am Cylon you are human

Have some faith (Have some faith)
Have some faith
All our gods

I am Cylon you are human
I am Cylon you are human
