All washed down the drain  
All washed down the drain  
Take it home with you  
I don't know what to say to you  
And I know how it can be

Drop to the whisper  
And take it while you can  
It's only a little bird  
In the palm of your big hand

Racked my brain  
And now I'm confused as hell  
I don't know what you want  
If it's all the same  
I think I'll go on home

Droppin' a whisper  
And take it while you can  
It's only a little bird  
In the palm of your big hand

No one can change  
You can't change
