What's all this commotion?  
You can break the alarm  
Restrain, please, don't bite me on the arm  
Capricorn Rising  
Diligent, she waits  
Bright eyes wink  
Future wife in a mini-skirt  
Buying me a drink, I abandon every plain  
Not your Mr. Right  
Committed like a burglar, arrive in style  
Nailed a warning sign  
Oh, when we get into square land, you'll get your little  
fish (?)  
Reel that sucker in  
In this condition, the elixir is zog  
Concentrated salvation, a region squad  
The way in my skeptic, blinded by grog  
A clever decision, never am solved
