This land is very small  
A bummy scrawl where people crawl  
America's the greatest way  
I'm counting thoughts, I'm counting days

I know it's true  
?Cuz God told me to tell it to you  
I know it's true  
A God told me to tell it to you

This metal cuts my skin  
America has eaten my cousin  
Green boots and a hard green helmet  
I feel so bad ?cuz I'm left and spent

I know it's true  
?Cuz God told me to tell it to you  
I know it's true  
?Cuz God told me to tell it to you

A God told me to tell it to you  
A God told me to tell it to you  
A God told me to tell it to you  
A God told me to tell it to you
