It's too bad.
It's too far gone.
Talks to much to ask.
Not that anything went wrong,
It's always been this way.
No one could believe,
How possible it's turning out to be.
Left for dead,
but It's always been this way.
Doesn't mean that I'm retarded.
It means I am bored.
Bored with your embarrassment.
Bored with your lack of confidence.
Bored, but always sincere.
Everyone acts so weird around me.
Neurotic just stumble around me.
Asking for things, that I can't give.

It's too bad.
I hate it now.
The words I never said.
Ancient anger,
My bitter selfishness.
Some people just can't to each other.
It's a fact that I can't reset.
I hate you now. I'll hate you yet.
I know its all your fault.
