Visit "[Perfect Power](#)" on MotoLyrics.com

You can walk on fire
You can talk to the dead
You can wait 'til tomorrow
You can't lose

Ain't it nice to find
Some wasted time wasn't wasted blind?
You only need to believe it

Don't you worry, right away under
You possess the perfect power
All above, others under
Hopeless, selfish, stupid power

Superstar, super just like me
Beauty is just a state of mind
It don't matter how I waste my time
Truth's just changin' every day today

I think I like it that way
I think I like it this way
Almost weak enough to get me off
No one's strong enough to make me stop
No one's strong enough to make me stop
