Suffer, suffer like I have  
Feel the pain tear you apart from inside  
Ignorant one, receive my wrath  
For thy deeds which soiled the essence of Pleroma  
Preceive the disgrace you laid upon us  
For as I see the bloodred sky  
I can hear the winds of doom...

Cross the ocean of storms  
To the fallen land buried in ruins  
And you will realize the truth  
That nothing was meant to be  
As the grievance of life increase  
And grow stronger and stronger every day  
Release me from these chains of torment

Even the white bird, that was made  
For life and hope, has turned into stone  
Now darkness falls deeper in every heart  
And abysmal fear overcomes mankind  
They have abandoned true freedom  
Now the time has come, it's too late!

I have seen so many life  
Drowning in your waters  
Again and again, all for nothing  
I know they will be condemned  
For their oath of blindness

We are forever doomed  
We were all born with this curse

Dark mistress of the night  
Awaken from your eternal slumber  
And take me far away from this place  
To the lands of my dreams and hope  
I know I can't live here anymore  
So please save me,  
From these chains of torment!

Dark mistress of the night

Awaken from your eternal slumber  
Tand take me far away form this place  
To the lands of my dreams and hope

By justice, I judge thee, the demiurg

Suffer, suffer like I have  
Feel the pain tear you apart from inside  
Ignorant one, receive my wrath  
For thy deeds which soiled the essence of Pleroma  
Preceive the disgrace you laid upon us  
For as I see the bloodred sky  
I can hear the winds of doom...
