You've  
Got a mind of your own  
Yeah, you proved  
You can slam down a phone  
And your rules  
They change with the weather  
It's not getting better

Venus and Mars  
Constantly misunderstanding  
Constantly making demands that  
I can't meet  
You halfway  
Just gotta say

Someone's gonna giveâ€¦  
and it ain't gonna be me  
From now on you've gottaâ€¦

Do what you're told  
Follow directions, obey the law  
I let you win but you go too far  
I know the deal, baby you're a star  
But you're outta control,  
you never do what you're told  
Read the instructions, stay on the road  
Think from above, not down below  
I'm the man, gimme control  
Baby baby please, just do what you're told

You've  
Been wearing the pants  
It was cool  
But I'm taking them back  
Yeah, I'm through  
With these knock-down  
drag-out conversations

We're Venus and Mars  
Standing on opposite planets  
Sexes panic

You get in the car, take my keys,  
And then you proceed to drive meâ€¦  
Crazy

Do what you're told  
Follow directions, obey the law  
I let you win but you go too far  
I know the deal, baby you're a star  
But you're outta control,  
you never do what you're told  
Read the instructions, stay on the road  
Think from above, not down below  
I'm the man, gimme control  
Baby baby please, just do what you're told

So whatever moods come and go baby  
Not taking whatever you throw my way,  
no wayâ€¦

Do what you're told  
Follow directions, obey the law  
I let you win but you go too far  
I know the deal, baby you're a star  
But you're outta control,  
you never do what you're told  
Read the instructions, stay on the road  
Think from above, not down below  
I'm the man, gimme control  
Baby baby please, just do what you're told  
Baby you're a star  
But you're, you're, you're outta control  
Oh baby please, baby please  
Do what you're told
