"Stabbin' daggers"

Circumstances beyond my control
Take advantage of my very soul
Time forgotten, but all but one
Misbegotten son of broken love

Take what you're givin for the last time
Nothin I'll never know
Stabbin' Daggers through my back
Through the heart they go

Turnin' circles, spiral down in spite
Contesting your very life
Need some answers down from on high
To the questions, father who am I?

I think you're talkin to the wrong guy
I'm someone you'll never know
