Out in the cold on our own
We make the rules, don't tell a soul
Nobody get me, nobody get me
But you, but you

Watching the crowd, come and they go
They in a rush, but we let it flow
Cause nobody get us, nobody get us
But you, you do

Baby we don't even care when they're looking at us
strange
We don't even care when they're shouting in our face
Like nobody's there when we get in that place
Crazy me and crazy you

In crazy love
Two of a kind, out of our minds
In crazy love
Always, oh baby
Crazy love
You're all I need, need in my life
This crazy love
Always, oh baby

Pouring with rain they run and hide
While it falls, we stand outside
Cause nobody get us, nobody get us
But you, you do

Baby we don't even care when they're looking at us
strange
We don't even care when they're shouting in our face
Like nobody's there when we get in that place
Crazy me and crazy you

In crazy love
Two of a kind, out of our minds
In crazy love
Always, oh baby
Crazy love

You're all I need, need in my life
This crazy love
Always, oh baby

I don't see nobody else but you
Nothing matters cause we're always true to know
We don't even give a f*ck
We got

Crazy love
Two of a kind, out of our minds
In crazy love
Always, oh baby
Crazy love
You're all I need, need in my life
This crazy love
Always, oh baby

Crazy love, crazy love

Crazy love
