

Ny "Music"

Visit "[Music](#)" on MotoLyrics.com

Do you want it, want it, want it?
Yes
Do you need it, need it, need it?
Yes

Music you are my everything
And I'll never go astray

I think that if you cut me open
Looked into my bones, you would see
That's where the melodies flow
And nothing on this earth that could take me away
No, I'll never change
Yeah I'm stuck in my ways

Nobody nobody nobody can tell you otherwise
Or they're telling lies
Can offer anything
And I mean it
There's no deal, no no no
I'll never go astray

I need it yeah, I breathe it yeah
Me and music together, it's double trouble
I feel it yeah, I live it yeah
It's rolling with me now, we're out of f'ing control
I need it yeah, I breathe it yeah
Me and music together, it's double trouble

Music you are my everything
And I'll never go astray

I know that if you listen
Put your ears up to my heart, you would hear
That's where the bass comes from
There's nowhere in the world that I'd ever stay
No it ain't a game
So don't try to play

Somebody somebody somebody can tell you otherwise
Then they're telling lies

And there is no way
I mean never but
There's no deal
I mean no deal

I need it yeah, I breathe it yeah
Me and music together, it's double trouble
I feel it yeah, and I live it yeah
It's rolling with me now, we're out of f'ing control
I need it yeah, I breathe it yeah
Me and music together, it's double trouble

Music you are my everything
And I'll never go astray

Yeah, yeah, yeah
Yeah, yeah, yeah

I'd never go astray
I'd never go astray

I need it yeah, I breathe it yeah
Me and music together, it's double trouble
I feel it yeah, I live it yeah
It's rolling with me now, we're out of f'ing control
I need it yeah, I breathe it yeah
Me and music together, it's double trouble

Music you are my everything
And I'll never go astray

Do you want it, want it, want it?
Yes
Do you need it, need it, need it?
Yes

Music you are my everything
And I'll never go astray
