We were tired of the bands with the heavy sound  
And we were tired of the bands that were blowin'  
around  
So we took the words we had and made some songs  
They will climb into your ears and it won't take long  
Well, grow a beard for a short while,  
Become a man for good...

Why don't you:  
Cut the clock from the wall  
Free the birds in the stall  
Blood is on the bathroom sink  
Take a break and stop to think  
Slide your keys into the lock  
Don't forget to you need to knock  
I'm always home, but never there  
Sleepin' in my underwear  
In my underwear

Put it all together  
Like a puzzle, yeah yeah
