If you want to leave me well thats alright
Come the morning find you gone well I wont mind
Its that that I don't love you baby, You know I do
But I don't want to put no hold on you

Such a lovely feeling darling having you so near
Gee its good to know that your around
But should you ever go away then let me make it clear
I wont ever try to tie you down

And if you should get restless well thats alright
Find that youre in need of a change well, well I wont mind
Don't misunderstand me baby, by love is true
But I don't want to put no hold on you

Such a lovely feeling darling having you so near
Gee its good to know that your around
But should you ever go away then let me make it clear
I wont ever try to tie you down

And If you want to leave me well thats alright
Come the morning find you gone well I wont mind
Its that that I don't love you baby, You know I do
But I don't want to put no hold on you
No I don't want to put no hold on you x3
