

O' Cealleigh "Atmosphere"

Visit "[Atmosphere](#)" on MotoLyrics.com

If your feeling down there's no need to cry
Look up through the clouds
Feel the sun shine down

A single mind
Aurora field
Our atmosphere
In each
Instilled

We breathe atmosphere here
Where we live and seed
Beyond a hidden cosmoscope
There's no need to feed

A single mind
Aurora field
Our atmosphere
In each
Instilled

Human emotions
Weather of the soul
Just enjoy the moments
Onto them don't hold

A single mind
Aurora field
Our atmosphere
In each
Instilled

Pearls like drops of water
Bring life to our face
Hand in hand with nature
We the human race
