Music, penetrates through me  
Oceans  
Waves made of sound

Sunbeams, highlight our ancestry  
Spectrum  
Projects itself out

Touch me, feel solid energy  
Objects  
Vibrations are bound

Giving love  
Singing love  
Music  
Like the sun

Giving love  
Singing love  
Music  
Like the sun

Creation  
God, Science, mystery  
Outside our senses are one

Human, Blending and synergies  
Creatures  
Working it out

Swimming in universe, entities  
Life forms and so it goes on
