Wake on sunny Sunday mornings  
Shafts of light warm my face  
Inspiring me to venture outside  
Who could miss glorious days

Sunshine lifts our spirits  
Breaks through clouds on murky days  
Sunshine lifts our spirits  
Keeping sadness at bay

These are moments that we live for  
Enchanting beauty of our world  
How could life here be so boring  
Simply watching natures spells

Sunshine lifts our spirits  
Breaks through clouds on murky days  
Sunshine lifts our spirits  
Keeping sadness at bay

With you I do long to share this  
Hand in hand we'd laugh and talk  
Lonely living in this landscape  
Until then I dream alone

Sunshine lifts our spirits  
Breaks through clouds on murky days  
Sunshine lifts our spirits  
Keeping sadness at bay
